

*Date:28/2/2023*

### *National Science Day 2023*

*National Science Day is celebrated every year in India on February 28 to mark the discovery of the Raman effect by the Indian physicist Sir C.V. Raman on this day in 1928. The Raman effect is a phenomenon in which light undergoes a change in wavelength as it passes through a medium.*

*The theme for National Science Day of this year is "Global Science for Global Wellbeing". It is observed to commemorate the discovery of the 'Raman Effect'.*

*Today in our school, Science Day was celebrated. Students of the school prepared various models of science experiments. Science quiz competition, Scientific rangoli competition, Science exhibition were also organized.*
